

Pure. Bright. Boundless.

Guardian UltraClear™

Low-Iron Glass

THE NEW NEUTRAL

Manufactured using a proprietary process, quality materials and dramatically low iron content, Guardian UltraClear™ float glass is noticeably more clear and color neutral than standard float glass.

AVAILABLE WHEREVER, WHENEVER YOU NEED IT

UltraClear glass is manufactured in the U.S. and distributed from multiple Guardian locations for efficiency and timeliness. For your convenience, this product can be combined with other Guardian products in a single truckload.

PRODUCTS AVAILABLE AT THESE LOCATIONS:

UltraClear	SunGuard®
Pattern	ClimaGuard®
ShowerGuard®	Spandrel HT
SatinDeco®	

OPTIONS

CLEAR TO THE EDGE

Guardian UltraClear™ low-iron float glass delivers maximum clarity and color neutrality—clear to the edge. Without the green tint of standard float glass, it elevates light transmission and presents views that are true to life. Designers and architects choose UltraClear glass to flood interiors with natural light and create drama with spaces that feel bright, open and boundless. Applications are many, including frameless enclosures, walls and partitions, entranceways, display cases, tables, railings and more—anywhere neutral color and clarity count.

SIZES AND THICKNESSES

UltraClear glass is available in thicknesses from 2mm to 12mm. Maximum size is 130" x 204".

PROCESSING OPTIONS

UltraClear glass can be processed like any conventional float glass, including lamination, painting, cutting, bending, silk screening and tempering.

The green cast of standard glass is amplified at the edge as size and thickness increases. UltraClear glass significantly reduces this effect for a clear, neutral finish no matter the dimensions of your application.

UltraClear glass

Standard Clear glass

ENHANCED PORTFOLIO

Guardian UltraClear™ glass substrate elevates the performance and aesthetics of a wide range of glass products.

Laminated UltraClear glass preserves light transmission through laminated layers that add strength, security and sound control

SatinDeco UltraClear glass provides translucence for privacy with light, in a neutral color

Mirror UltraClear glass improves the clarity and distortion-free qualities of mirrored glass

ShowerGuard UltraClear shower glass resists corrosion while transmitting light and color-true views of bathroom design elements

SunGuard UltraClear glass combinations increase light transmission, and are the natural choice when true color and clarity counts in commercial applications
